TWIN TURBO LITEPAPER

Turbo's twin on Solana. Same spirit. Double boost. Second turbo just kicked in.

$TURBO | Solana

HIGH-SPEED SUMMARY

Turbo's Twin

An independent meme token on Solana inspired by the OG TURBO spirit. Built for speed and culture.

Trust-First

Fair launch on Pump.fun, 0% tax, and a secure setup with mint and freeze authorities disabled.

Meme First, Utility Next

Focus on shipping elite memes, then building the Twin Turbo Garage, a lightweight holder dashboard.

MEET THE PILOT

✅ A yellow racing toad carrying the OG TURBO energy to Solana.

✅ Equipped with a twin-turbo jetpack, built for speed and clean execution.

✅ One rule: when the second turbo kicks in, you don't tap the brakes.

OUR NON-NEGOTIABLES

✓ **Fair Launch:** No presale, no team tokens. Everyone buys on the open market.

✓ **Simplicity:** 0% tax. No hidden mechanics or gimmicks.

✓ **Transparency:** Key actions are public and verifiable on-chain.

✓ **Community-Driven:** The crew fuels the culture, memes, and momentum.

THE SPEC SHEET

Name	Twin Turbo
Ticker	$TURBO
Chain	Solana
Total Supply	1,000,000,000
Contract Address	TBC upon launch

BUILT FOR TRUST

- **0% Tax:** No taxes on buys or sells. What you trade is what you get.

- **Authorities Disabled:** Mint and freeze authorities are disabled at launch. No new tokens, no frozen wallets.

- **Verifiable On-Chain:** All security claims can be independently verified using a Solana block explorer like Solscan.

IGNITION SEQUENCE: THE LAUNCH

Platform: Fair launch on Pump.fun for equitable, open-market distribution.

Bonding Curve: Buys contribute to the token's initial liquidity pool.

Graduation: The curve completes, liquidity is deployed to a DEX, and LP tokens are automatically burned.

Locked Forever: This mechanism ensures the initial liquidity is permanently locked.

ENTERING OPEN SPACE

- After graduation, $TURBO is usually tradable across Solana routes and aggregators.

- Raydium and Jupiter routing often appear once the pool is live and indexers have picked it up.

Always verify the Contract Address from official links before trading.

THE PATH TO FULL BOOST

PHASE 1: IGNITION

- Launch, DEX visibility, and initial community growth (Target: 1k holders).

PHASE 2: ACCELERATION

- CG/CMC listings, community raids, and scaling momentum (Target: 5k holders).

PHASE 3: EXPANSION

- Twin Turbo Garage v1, targeted CEX applications, and merch concepts.

Full boost mode.

UTILITY: THE TWIN TURBO GARAGE

- **Concept:** A lightweight, fast hub for $TURBO holders. No grand promises, just useful tools.

- **v1 Features:** Official links hub, live stats, and holder tools (watchlists, quick-buy links).

- **Add-ons:** Community-led features like holder badge tiers, whale watch, and a raid kit.

SAFETY CHECKLIST

⚠️ We will **NEVER** DM you first. Any 'support' DM is a scam.

⚠️ Only trust links from our official, verified X account and website.

⚠️ Always double-check the Contract Address (CA) before any transaction.

⚠️ Expect delays on third-party trackers (DEXs, wallets) during high volume.
